Participants can receive financial support and guidance for:

- 50% of wages
- Mentors and cohorts
- Career awareness
- Professional development
- Field trips
- Guest speakers
- Training
- Transportation costs
- Materials and supplies

About the Program

NCBCE's *Building Bright Futures* (BBF) supports **early childhood education pre-apprenticeship-to-apprenticeship** programs in North Carolina.

This pilot program provides resources and services to participants, with the goal of **creating additional learning opportunities and eliminating prohibitive costs** for early childhood students, educators, and employers.

Based on pilot experiences, NCBCE will **develop a playbook** for implementing and scaling the Building Bright Futures program across the state.

Building Bright Futures runs from January 1, 2023 until December 31, 2024.

Join Us!

Apprenticeships are for anyone age 16+ interested in early childhood, no matter your experience or education.

*We can help
you get started!*

Year-Round Experiences

We can support activities, classes, programs,
and on-the-job training hours all year long,
not just when school is in session.

*Let's work together to build
a strong foundation for
NC's children and future educators!*
